PERSONAL DETAILS

Date of Birth : 31.07.1997
Marital Status : Single
Nationality:-Sri-Lankan

I am an experienced draughtsman in the civil engineering field, specializing in creating detailed technical drawings and plans. With proficiency in CAD software, I accurately translate conceptual ideas into precise drawings. I collaborate with project teams, interpret architectural and engineering specifications, and ensure compliance with industry standards. Additionally, I possess strong knowledge of Building Information Modeling (BIM) and can develop projects at LOD 300-350. This involves creating 3D models, generating accurate quantity takeoffs, and coordinating disciplines within the BIM environment. My expertise in LOD standards ensures reliable models for construction documentation, clash detection, and project coordination. I am dedicated to delivering high-quality work and supporting the successful execution of civil engineering projects.
