4TH JANUARY 2026

Dear Hiring Manager,

I am writing to apply for the Plumbing Engineer position. My name is Dimuth Vitharana, and I am a Senior Plumbing Engineer and BIM Specialist with over 30 years of experience in the design and installation of plumbing systems for large-scale and complex construction projects.

I am the owner of TAS Engineering (Pvt) Ltd, Sri Lanka, where I have successfully delivered complete plumbing solutions, including hot and cold water supply systems, sewage, wastewater, and stormwater management, for luxury hotels, hospitals, high-rise apartments, commercial buildings, and residential developments.

My experience spans the full project lifecycle—from concept design and BIM coordination to site execution and commissioning.

I am highly skilled in AutoCAD and Autodesk Revit (BIM Modeling) and specialize in producing construction-ready shop drawings and as-built documentation that minimize site conflicts and enhance construction efficiency. I consistently work to international engineering standards while meeting demanding project timelines and budgets.

I am confident that my technical expertise, leadership experience, and strong work ethic would allow me to contribute positively to your engineering team. I would welcome the opportunity to discuss how my qualifications align with your organization's requirements.

Thank you for your time and consideration.

Yours sincerely,

Dimuth Vitharana
Senior Plumbing Engineer

Diploma in Civil Engineering – Open University of Sri Lanka
